**APPEAL FOR PARTICIPATION**

‘HARIYALI’ has completed fifteen years of its operations in the field of environmental protection and upgradation. Major thrust areas of its activities have been afforestation on large scale, water conservation and generating environmental awareness. Similarly, it has always been its endeavor to carry out all of its activities, as far as possible, through ‘Shramdan’ of people at large, more particularly, students of schools, colleges, employees from corporate sector, nature-lovers, senior citizens and practically all sections of the society.

Hariyali feels it is now felt necessary to take a review of all such activities, their impact on the ground and all the stake-holders and chalk out a policy and programme for the future march.

On the other hand, B.N. Bandodkar College of Science, Thane has been one of the most valuable ‘Participatory Organization’ of Hariyali right from the beginning through its N.S.S. Unit, Nature Club and students belonging to various disciplines for their projects, research students, etc along with many other schools, colleges, corporate, other social service organizations, etc. on a sustainable and basis and an ever-increasing level. It is felt necessary to take a review of such participation, their experience, expectation and suggestions for activities in the future.

It is on the background of this that both the organizations have now decided jointly to a one-day Symposium to hold discussions on all such matters and chalk out a comprehensive policy and programme for the future. This would also enable us to give a new direction to the co-operation between NGOs like Hariyali, N.S.S. activities of colleges from Mumbai Universities and CSR teams from the corporate sector in the service of the society. The target audience for participation is members and patrons of Hariyali, Professors and co-ordinators of N.S.S. Units, scientific community belonging to several disciplines, CSR teams from corporate sector and other ‘participating’ and ‘facilitating’ organizations of environmental activities in general and that of Hariyali in particular.

**Details regarding the day, date, venue, registration, etc are given separately.**

**All those who are interested in and concerned with such activities are requested to register themselves for the proposed symposium. Registration fee for participation in the symposium is kept at uniform and modest rate of Rs. 250/- (Rs. two hundred and fifty only) per person to enable even the students’ community to participate. This would include the cost of breakfast, lunch, tea and literature to be provided at the symposium.**

Proceedings of the symposium shall be conducted in English, Marathi and Hindi so as to enable all the participating community to be able to participate in the discussion. There would be group discussions at the end of each session and the suggestions emerging out of such discussions shall be taken compiled, communicated to all the participants and shall be taken into consideration by the organizers of the event in chalking out their future course of action.

Thane, 2<sup>nd</sup> November 2011
